

Getting set up for kegs:

Ever think about having your own beer on tap? With our keggings kit, that is possible.

We are constantly helping people custom build custom keggerator setups to serve their homebrews and or purchased kegs at home!

The keggings kit sold at Siciliano's Market contains the following:

- Recondition 5-gallon Cornelius keg (ball lock or pin lock)
- Quick disconnects (ball lock or pin lock)
- Brand new 5/16" dual gauge regulator
- Brand new aluminum 5-pound CO2 tank (sold empty)
- Cobra picnic-style faucet
- Liquid & gas line
- Gas line fittings

Other equipment/supplies needed:

- Dip-tube brush
- Straight-A, B-Brite, or ideally PBW for cleaning kegs.
- Socket wrench
- Ball lock: 7/8" 12-point deep well socket
- Pin lock: Custom pin lock socket, sold at Siciliano's

Recommended equipment/supplies:

- Tank brush (carboy brush will work)
- Refrigerator or adapted freezer
- We sell temperature control regulators for refrigerators and freezers.

For permanent and/or multi-tap setups we sell:

- Secondary regulators
- Shanks up to 6"
- Faucets
- Chrome forward sealing
- Perlick rear sealing
- Perlick stainless steel rear sealing
- CO2 manifolds with up to 4 shutoff valves
- Various fittings and supplies
- American and European keg couplers
- Replacement parts

We also special order supplies including, but not limited to:

- Faucet towers
- Nitro faucets
- Nitro regulators and tanks
- Foreign style keg couplers
